Date: 1 April 2026 **Matter:** Wellex Platform — International Legal Opinion **Reference:** MGL/WLX/2026/LO-001

ADDRESSED TO

Mr. Nick William Bennett, Director

Calon Wealth Management Ltd · The Mansion House, Digital Mansion, Corsham, Pickwick Road, Corsham, England, SN13 9BL · Company No.: 14813653 · wellex.io

RE: INTERNATIONAL LEGAL OPINION — WELLEX PLATFORM (wellex.io) — DEFI WELLNESS PROTOCOL, DATA PROTECTION, DEPOSIT INSURANCE, PARTNER PROGRAM & CORPORATE COMPLIANCE

I. INTRODUCTION AND SCOPE

Meridian Global Law LLP ("the Firm"), an international law firm specialising in financial technology, digital assets, data protection, and regulatory compliance, has been instructed by Calon Wealth Management Ltd (Company No. 14813653) to provide this International Legal Opinion in connection with the operations of the Wellex Platform at wellex.io.

DOCUMENTS REVIEWED

- Certificate of Incorporation and Companies House filings (Co. No. 14813653);
- Terms of Service v1.0; Privacy Policy v1.0; KYC/AML/CTF Policy v1.0; Risk Disclaimer v1.0;
- Deposit Insurance Certificate No. WLX-INS-2026-001;
- Cookie Policy v1.0; Partner Program Agreement v1.0;
- WellexVault smart contract documentation; Wellex Band technical specifications; WVI algorithm description.

II. CORPORATE STANDING

Calon Wealth Management Ltd is a private limited company duly incorporated under the laws of England and Wales (Company No. 14813653). Based on our review of Companies House records: the Company is in good standing; Mr. Nick William Bennett is duly registered as Director; all required statutory filings are current.

✓OPINION 2.1 — CORPORATE STANDING

It is our opinion that Calon Wealth Management Ltd is a validly incorporated and subsisting legal entity under the laws of England and Wales, with full legal capacity to enter into contracts, own property, and conduct the business activities described herein.

III. FINANCIAL REGULATORY COMPLIANCE (UK)

The provision of DeFi yield services in the United Kingdom is subject to FCA oversight under FSMA 2000 and MLR 2017. The Wellex DeFi yield protocol operates through WellexVault (ERC-4626), deploying capital across DeFi Lending (Aave v3, Compound, Morpho), RWA/US Treasuries (Ondo, Maple, Superstate), Prediction Market LP, and Arbitrage strategies.

Regulatory Note: The UK Financial Services and Markets Act 2023 is extending FCA oversight to cryptoassets. Depending on the degree of discretionary control exercised over deposited assets, registration as a Cryptoasset Business under MLR 2017 may be required. We recommend the Company seek ongoing regulatory monitoring and proactively engage with the FCA.

✓OPINION 3.1 — REGULATORY COMPLIANCE

Subject to the qualifications set forth herein, the structure of the Wellex DeFi yield protocol is designed to operate consistently with current UK regulatory guidance applicable to technology-facilitated DeFi services. We recommend active FCA dialogue and implementation of the KYC/AML/CTF Policy as described.

IV. DATA PROTECTION AND BIOMETRIC DATA

The Wellex Band collects biometric data (HRV, ECG, SpO2, EDA, sleep patterns, and related metrics). Under Article 9 UK GDPR / EU GDPR, this constitutes **Special Categories of Personal Data** requiring explicit consent and heightened protection. The Privacy Policy correctly identifies biometric data as Special Category, specifies explicit consent as legal basis, describes purpose limitation to WVI calculation, and designates a DPO. The TEE-based on-device processing reflects privacy-by-design principles under Article 25 UK GDPR.

✓OPINION 4.1 — DATA PROTECTION

The Company's Privacy Policy and data processing architecture demonstrate good-faith compliance with UK GDPR obligations for Special Category biometric data. The TEE approach is consistent with Article 25 UK GDPR. We recommend formal DPO appointment and ICO registration as a data controller processing Special Category data.

V. AML / KYC / CTF COMPLIANCE

The KYC/AML/CTF Policy v1.0 establishes a three-tier KYC framework, threshold-based verification triggers ($1,000/$10,000/$10,000+), explicit prohibited jurisdictions list, blockchain analytics monitoring (Chainalysis/Elliptic), SAR reporting obligation to the NCA, PEP screening, and 7-year data retention — all consistent with UK MLR 2017 and the FATF Risk-Based Approach.

✓OPINION 5.1 — AML FRAMEWORK

The KYC/AML/CTF Policy reflects a compliant framework under UK MLR 2017 and meets the Risk-Based Approach as mandated by FATF Recommendations. Blockchain analytics monitoring is consistent with FCA guidance for cryptoasset businesses. We recommend formal appointment of an MLRO with direct Board reporting responsibility.

VI. DEPOSIT INSURANCE ARRANGEMENT

The Company has arranged deposit insurance through W Denis Insurance Brokers International Ltd (Reg. No. 00759111, Leeds, UK) — an established insurance intermediary operating since 1959. The Deposit Insurance Certificate No. WLX-INS-2026-001 provides: 100% principal protection against insolvency, fraud, and operational failure; 15% per annum guaranteed return (simple interest); 3-year coverage from first deposit date.

✓OPINION 6.1 — INSURANCE VALIDITY

The Deposit Insurance Certificate constitutes a valid contractual arrangement under English law between Calon Wealth Management Ltd and W Denis Insurance Brokers International Ltd. The Certificate provides legally enforceable protection for deposited principal and the 15% per annum guaranteed return, subject to specified exclusions. We recommend formal execution, notarisation, and review of the underlying insurance policy at the underwriter level.

VII. PARTNER PROGRAM COMPLIANCE

The Wellex Partner Program is a multi-level referral structure with 10 ranks and up to 10 levels of depth. Under English law, such structures are permissible under CPR 2008 provided they are not illegal pyramid schemes under the Trading Schemes Act 1996. Earning commissions on DeFi staking deposits and yield — rather than on subscription recruitment — is legally sound. The Partner Agreement correctly prohibits income guarantees and requires reference to the official Income Disclosure Statement.

✓OPINION 7.1 — PARTNER PROGRAM

The Wellex Partner Program, as structured in the Partner Program Agreement v1.0, does not exhibit the characteristics of an illegal pyramid scheme under English law, provided that: (i) the 70% revenue rule is maintained in practice; (ii) income representations are limited to the official Income Disclosure Statement; and (iii) the prohibition on subscription-based commissions is strictly enforced.

VIII. INTELLECTUAL PROPERTY

The Company owns or has licensed: the Wellex brand and logo; the 'Emotional Mining' concept (trademark registered, patent pending); WVI algorithm (patent pending); AI Yield Engine; WellexVault smart contract code; Living NFT design.

✓OPINION 8.1 — INTELLECTUAL PROPERTY

The described IP assets, if validly registered and documented as represented, constitute protectable assets under UK IP law (Trade Marks Act 1994, Patents Act 1977). We recommend providing registration certificates and patent applications for further review, and ensuring all IP assignments from creators to the Company are properly documented.

IX. CROSS-BORDER OPERATIONS

EU: EU GDPR applies to EU resident data; consider EU representative appointment under Article 27 EU GDPR. **UAE:** ADGM/DIFC regulations and VARA (Virtual Asset Regulatory Authority) framework may apply. **CIS:** Regulatory environments vary significantly; local counsel required in each target market. **USA restriction:** Blanket restriction on US persons is appropriate given broad SEC and OFAC extraterritorial reach.

✓OPINION 9.1 — CROSS-BORDER

The Company has taken reasonable initial steps to address jurisdictional risks through TOS exclusions and KYC geographic restrictions. Jurisdiction-specific legal reviews are required for UAE and CIS markets prior to active marketing campaigns. We recommend engagement of local counsel in key target markets.

X. SUMMARY CONCLUSIONS AND PRIORITY RECOMMENDATIONS

Based on our review and subject to the assumptions and qualifications herein, we conclude:

1. Calon Wealth Management Ltd is a validly incorporated entity with full legal capacity;
2. The legal documentation package reflects a substantive effort to address principal regulatory requirements;
3. The biometric data processing framework is consistent with UK GDPR requirements;
4. The AML/KYC programme is appropriately structured under UK MLR 2017;
5. The Deposit Insurance Certificate constitutes a valid contractual commitment and meaningful user protection;
6. The Partner Program is structured to avoid pyramid scheme characteristics under English law;
7. The described IP assets are protectable subject to proper registration.

PRIORITY RECOMMENDATIONS

1. **[HIGH]** Register with ICO as data controller processing Special Category biometric data;
2. **[HIGH]** Formally appoint MLRO with direct Board reporting;
3. **[HIGH]** Execute and notarise the Deposit Insurance Certificate;
4. **[HIGH]** Obtain UAE (VARA) and CIS local legal reviews before launch;
5. **[MEDIUM]** Prepare and publish the official Partner Income Disclosure Statement;
6. **[MEDIUM]** Confirm all WVI / Emotional Mining IP documentation is in order;
7. **[MEDIUM]** Appoint EU GDPR representative if targeting EU residents;
8. **[LOW]** Conduct annual compliance audits of Partner Program activities.

XI. ASSUMPTIONS AND QUALIFICATIONS

- This Opinion is based solely on documents listed in Section I and representations made by the Company. We have not independently verified factual matters therein;
- This Opinion reflects the law of England and Wales as at the date hereof. The DeFi regulatory landscape is evolving rapidly;
- This Opinion does not constitute legal advice with respect to any jurisdiction other than England and Wales;
- We express no opinion on the commercial viability of the Wellex Platform;
- This Opinion may only be relied upon by the addressee and parties with express written consent of Meridian Global Law LLP.
